### A.2 Project summary

Please give a short overview of the project and describe:

- the common challenge of the programme area you are jointly tackling in your project;
- the overall objective of the project and the expected change your project will make to the current situation;
- the main outputs you will produce and those who will benefit from them;
- the approach you plan to take and why a cross-border/transnational/inter-regional approach is needed;
- what is new/original about the project.

## C - Project description

### C.2 Project relevance and context

#### C.2.1 What are the common territorial challenge(s) that will be tackled by the project?

Please describe why your project is needed in the programme area and the relevance of your project for the programme area, in terms of common challenges and opportunities addressed.

#### C.2.2 How does the project tackle identified common challenges and/or opportunities and what is new about the approach the project takes?

Please describe new solutions that will be developed during the project and/or existing solutions that will be adopted and implemented during the project lifetime. Describe also in what way the approach goes beyond existing practice in the sector/programme area/participating countries.

#### C.2.3 Why is cross-border/transnational/inter-regional cooperation needed to achieve the SPF project's objectives and result?

Please explain why the project objectives cannot be efficiently reached acting only on a national/regional /local level and/or describe what benefits the project partner/final recipients/target groups/ project area /programme area gain in taking a cross-border/transnational/inter-regional approach.

#### C.2.4 Who will benefit from your project outputs?

In the first column of each row, please select one of the pre-defined target groups from the drop-down list. In the second column explain in more detail exactly who will benefit from your project. For example, if you choose the category education, you need to explain which specific schools or groups of schools and in which territory.

| Target Group | Specification |
|--------------|---------------|
|--------------|---------------|

#### C.2.4a Who will be final recipients in the SPF project?

Please select one of the pre-defined beneficiary groups from the drop-down list. In the second column explain in more detail why this group of beneficiaries will contribute to the SPF project.

| Recipient group | Specification |
|-----------------|---------------|
|-----------------|---------------|

#### C.2.5 How does the project contribute to wider strategies and policies?

Please indicate to which strategies and policies your project will contribute. Then describe in what way you will contribute.

| Strategy | Contribution |
|----------|--------------|
|----------|--------------|

**C.2.6 Which synergies with past or current EU and other projects or initiatives will the project make use of?**

| Project or Initiative | Synergy |
|-----------------------|---------|
|-----------------------|---------|

**C.2.7 How does the project build on available knowledge?**

Please describe the experiences/lessons learned that the project draws on, and other available knowledge the project capitalises on.

## C.4 Project work plan

No work packages

## C.5 Project Results

What do you expect to change because of the activities you plan to implement and the outputs you plan to deliver? Please take a look at the programme result indicators and select those that you will contribute to.

No results

## C.7 Project management

Carefully planned management structure of a SPF project is an important element of smooth and lean implementation; you will need time and resources for coordination and communication, including internal one. Please describe below how you plan to organise yourself to ensure the SPF project work runs smoothly.

### C.7.1 How will you coordinate your project?

Who will be responsible for coordination? Will you have any other management structures (e.g. assessment panels, selection bodies, monitoring and capitalisation bodies, communication)? How will the internal communication work?

### C.7.2 Which measures will you take to ensure quality in your project?

Describe specific approaches and processes and responsible partners. If you plan to have any type of project evaluation, please describe its purpose and scope here.

### C.7.3 What will be the general approach you will follow to communicate about your project?

What will be a communication strategy of your project? Who will be responsible for communication? How will the communication function contribute to transferring of your project results? Please note that all communication activities should be included in the work packages, as an integral part of your project. There is no need to repeat this information here.

### C.7.4 How do you foresee the financial management of the project and reporting procedures for activities and budget (within the partnership and towards the programme)?

Define responsibilities, deadlines in financial flows, reporting flows, project related transfers, reclaims, etc.

### C.7.6 Horizontal principles

Please indicate which type of contribution to horizontal principles applies to the project, and justify your choice.

| Horizontal principles                      | Type of contribution | Description of contribution |
|--------------------------------------------|----------------------|-----------------------------|
| Sustainable development                    |                      |                             |
| Equal opportunities and non-discrimination |                      |                             |
| Equality between men and women             |                      |                             |

## C.8 Long-term plans

As a programme, we would like to support projects that have a long-lasting effect in the territory and those who will benefit from them. Please describe below what you will do to ensure this.

### C.8.1 Ownership

Please describe who will ensure the financial and institutional support for the outputs/deliverables developed by the project (e.g., tools), and explain how these outputs/deliverables will be integrated in the work of the institutions

### C.8.2 Durability

Some outputs/deliverables should be used by relevant groups (project partners or others) after the project's lifetime, in order to have a lasting effect on the territory and the population. For example, new practices in urban transport need to be used by local authorities to have cleaner air in the city, and the whole population will benefit from this. Please describe how your outputs/deliverables will be used after the project ends and by whom.

### C.8.3 Transferability

Some outputs/deliverables that you will deliver could be adapted or further developed to be used by other target groups or in other territories. What will you do to make sure that relevant groups are aware of your outputs/deliverables and are able to use them?
